INDEX

Note—Illustrated articles are marked with an (*) asterisk.

Advantages of motor trucks for use on steamship piers. Patten..... 447
Aeronautics in relation to naval architecture 541
Alaska coal for marine service, fuel values of. Allison..... 398
Alquist gearing for ship propulsion. Emmet *536
American Bureau of Shipping..... 251
American Bureau of Shipping, new members and managers of..... 478
American Bureau of Shipping, scope of widened 520
American-designed working boat for Cartogena, Colombia, S. A..... *487
American International Terminals Company 440
American merchant marine. Nolan..... 317
American merchant marine, new and constructive policy of building the. Baker. 112
American Shipbuilding Co..... 141
American ships, world-wide demand for. Taylor 523
American shipyards and marine repair plants 113
Analysis of the Shipping Bill. "Old Scotch" 107
Annie Johnson, auxiliary schooner..... *407
Antwerpen, oil tank steamer..... *491
Application of DeLaval high speed, reducing gears to turbine drive on board ship *339
Army collier, No. 1, United States..... *184
Army transport McClellan, conversion into a refrigerator ship. French..... *189
Auxiliary motor ship City of Portland. McAlpin *292
Auxiliary schooner Annie Johnson. Perkins *407

Baltimore shipbuilding plant reorganized *129
Barge canal 436
Barge No. 2, Canadian government hopper *53
Barges and boats for river navigation, shallow draft. Beach and Kellar..... *53
Barges, resistance of. Sadler..... 547
Bath's leading shipyard..... *118
Battleship Nevada, United States..... *155
Better docks for less money. Farrand.. *468
Bids for new warships..... 482
Boats and barges for riven navigation, shallow draft. Beach and Kellar.... *53
Boilers, dry steam in Scotch—remarkable performance of..... *205
Boilers on steamship Minnesota, new.... *493
Boiler, test of Ward watertube. Robinson *330
Bristol, steamship, remarkable performance of—dry steam in Scotch boilers.. *205
British fleet—naval preparedness. Sinn.. 314
Bulk cargo steamer Chokyu Maru. Ryu. *59
Burmeister & Wain Diesel motor, built in America..... *170
Burning of big Pacific coastwise passenger steamship Congress..... 496
Bylayl, launch of collier..... 42

Calculations for ship's forms. Taylor.. *246
Calculations for ship's forms. Taylor.. *71
California Shipbuilding Co..... *146
Canadian government hopper barge No. 2 *53
Canal, the barge..... 436
Canal, completion of Lake Washington.. *417
Cargo capacity in motor ship, gain of. Crowley *400
Cargo handling in American marine terminals, the status of. Rogers..... 356
Cargo steamer Chokyu Maru, bulk. Ryu. *59
Cargo steamer lengthened over 50 feet and converted into an oil tanker..... *420
Castings for American merchant and war vessels. Cone *336
Central Railroad for N. J., new tugs for. Norton *56
Chain cables, power forging of..... 542
Chester Shipbuilding Co..... 128
Chiyo Maru, wreck of the Japanese liner *382
Chokyu Maru, bulk cargo steamer. Ryu *59
City of Portland, auxiliary motor ship. McAlpin *292
Clyde line steamers built on the Lakes.. 321
Coal handling equipment at Pittsburg and Conneaut dock *15
Coal handling on the British waterfront.. .327
Coaling pier at Charleston, S. C., Southern Railway *58
Coastwise collier Jonancy..... *9
Coefficients of vessels. Liddell..... 176
Collier Bylayl, launch of..... 42
Collier Jonancy, coastwise..... *9
Collier No. 1, United States Army..... *184
Colliers Ulysses and Achilles, Panama.. *283
Columbia, trials of motor ship..... 43
Compass, commercial gyroscopic. Sperry 549
Competing marine terminals at seaports. McL. Harding..... *455
Completion of Lake Washington Canal.. *417
Concrete docks, reinforced..... *468
Congestion at marine terminals, costly. Marshall 193
Congress, burning of big Pacific coastwise passenger steamship..... 496
Convention of the American Society of Marine Draftsmen..... 306
Conversion of the army transport McClellan into a refrigerator ship. French *189
Conveying machinery for handling bulk freight on board ship. Greene..... *503
Co-operation between motor trucks and steamship lines in handling freight. Whittemore 61
Corporation formed to study terminal problems 440
Corresponding conditions of steamship service. Liddell..... 225
Corrosion and prevention, Voltaic. Rogers 250
Costly congestion at marine terminals. Marshall 193
Cramp Ship and Engine Building plant. 120
Crandall railway dry docks in Scandanavia *487
Criterion of propeller surface. Doig.... 178
Cubadist, launch of *240

DeLaval high speed, reducing gears, application to turbine drive on board ship *339
Design for turbine-driven ships, propeller. Graveson *66
Design of an oil engine..... 541
Destructive storm damages shipping and waterfront property at Mobile..... *488
Diesel-engined yacht, Georgiana III.... *527
Diesel engine, Werkspoor, Wilson..... *16
Diesel motor, Burmeister & Wain..... *170
Dock, coal handling equipment at Pittsburg and Conneaut..... *15
Dock of Freeport Sulphur Company, loading *447
Docking facilities at New Orleans..... 126
Docks, better for less money. Farrand.. *468
Draft of ships in the Panama canal.... 436

Drafting room. Robinson *11
Dredge with geared turbine-driven pumps *244
Dry docks in Scandanavia, Crandall, railway *487
Dry steam in Scotch boilers—remarkable performance of the steamship Bristol. *205
Dutch passenger and mail steamship. Coleman *181
J. F. Duthie & Co. 148
Economic marine propulsion. Rogers... *316
Economics of a steamship line. Percy.. 398
Economy of handling freight at New York Cetnral Weehawken piers 148
Edward Luckenbach, geared-turbine freight steamship launched at Fore River shipyard *486
Efficient steering. Pratt *207
Electric propulsion on a merchant vessel *13
Electric stevedore, helping the. Yost.... *448
Electricity, how it is harnessed to terminal work. Rogers *464
Elevators, inclined, increase economy of handling freight at New York Central Weehawken piers 148
Engine, future of the marine. Wentworth *270
Engine, Werkspoor marine Diesel. Wilson *16
Engines, Skandia marine oil *220
Estimating, power. Baier *499
Exhaust steam in a shipyard, utility of.. 252
Experiments, inclining—practical hints. Baier 227

Feathering paddle wheels. Bragg 548
Fire-tube superheater on railroad tug, installation of *160
Floating hospital Helen C. Julliard.... *54
Forging of chain cables 542
Friction, theory of fluid. Gatewood.... 544
Fore River shipyard *114
Fore River shipyard, plate and angle shop and mold loft completed *485
Form coefficients of vessels. Liddell.... 176
Freeboard: its preliminary determination. Everett *194
Freeport Sulphur Company, loading dock of *447
Freight, co-operation between motor trucks and steamship lines in handling. Whittemore 61
Freight handling at marine terminals. Marshall 225
Freigth handling at New York Central Weehawken piers 148
Freight handling through unoccupied terminal space. Libby *459
Freight steamer, Milazzo, Italian *365
Freight steamers, new Luckenbach 162
Freight steamship Edward Luckenbach launched at Fore River shipyard *486
Freight terminal problem. Horine *20
Freighters, ocean. Riggs 229
Frozen beef for Europe *273
Fuel values of Alaska coal and marine service. Allison 398
Furnaces installed at Cramp's shipbuilding plant, plate and angle *422
Future of the marine oil engine. Wentworth *270

Gain in cargo capacity in motor ship of about 3,000 tons deadweight capacity. Crowley *400
Geared turbine and turbo-electric systems of marine propulsion. Macalpine *4
Geared turbine-driven dredge pumps.... *244
Geared turbine freight steamship launched at Fore River Shipyard *486
Geared turbine machinery for single screw tank steamer, Westinghouse.... *367
Geared turbine propelling machinery on freight steamer Pacific 159
Geared turbine tank steamer *359
Gearing for ship propulsion, "Alquist." Emmet *536
General C. B. Sears, harbor survey boat. *289
Geometry of wide-bladed screw propeller. Graveson *242
George E. Warren lengthened over 50 feet and converted into an oil tanker.. *420
Georgiana III *527
Gyroscopic compass, commercial. Sperry. 549

Hall Bros'. Shipbuilding and Repair plant *147
Hanlon Dry Dock & Shipbuilding Co., Inc. 142
Hannevig motor-driven oil tankers..... 144
Harbor and port terminal facilities and work. Harding 60
Harbor and waterway improvement work in Russia 436
Harbor survey boat General C. B. Sears. *289
Harlan & Hollingsworth Corporation... *134
Helen C. Julliard, floating hospital..... *54
Helping the electric stevedore. Yost... *448
Hendricks' Commercial Register..... 491
Hoisting equipment for marine terminals *462
Honolulu terminal *446
Hopper barge No. 2, Canadian government *53
Hospital Helen C. Julliard, floating.... *54
How electricity is harnessed to terminal work. Rogers *464
How our navigation laws compare with others 70
Huge plate and angle shop and mold loft completed at Fore River shipyard..... *485
Hunt tracks, tractors and trailers. Jenckes *460

Inclined elevators increase economy of handling freight at New York Central Weehawken piers 148
Inclining experiments—practical hints. Baier 227
Inefficiency in handling imports. Spaulding *437
Institution of Naval Architects, annual meeting of the 239
Italian freighter with special equipment for unloading cargo *365

Jan Pieterszoon Coen, Dutch passenger and mail steamship. Coleman..... *181
Johnson & Lanteri shipbuilding and repair yard *142
Jonancy, coastwise collier *9

Lake Washington Canal, completion of.. *417
Launch of collier Bylayl 42
Launching of the tank steamer Cubadist. *240
Launching, pressure on vessel's bottom during *187
Lloyd's annual report 521
Loading and unloading machines for marine terminals, portable. Frost.... *452
Loading dock of Freeport Sulphur Company, Freeport, Texas *447
Luckenbach freight steamers 162

McClellan, conversion of army transport into a refrigerator ship. French..... *189
Machinery for handling bulk freight on board ship, conveying. Greene..... *503
Manitowoc Shipbuilding & Dry Dock Co. 140
Marine articles in the engineering press 351, 433
Marine oil engines, Skandia *220
Marine propulsion, geared turbine and turbo-electric systems of. Macalpine.. *4
Marine terminal improvements at port of Philadelphia *437
Marine terminal proposed for Honolulu.. *446
Maryland Steel Co 124
Mathis Yacht Building Company 120
Merchant marine, American. Nolan.... 317
Merchant marine, why the Navy League is inetsested in the re-etsablishment of the 482
Merchant shipbuilding in France..... *183
Merrill-Stevens shipyard *127
Milazzo, Italian freight steamer..... *365
Millions of dollars wasted at marine terminals 520
Minnesota, fitted with new boilers..... *493
Model basin, notes from. McEntee..... *530
Modern submarines in war and peace. Lake 29, 75, 201
Moore & Scott shipyard *533
Morse Dry Dock & Repair Co..... *136
Mother ship for the submarines of the U. S. Navy, need of. Skerrett..... *234
Motor-driven oil tankers, Hannevig.... 144
Motor ship, gain of cargo capacity in, of about 3,000 tons deadweight. Crowley. *400
Motor ship City of Portland, auxiliary. McAlpin *292
Motor ship Columbia, trials of..... 43
Motor ship Oregon *335
Motor ship Peru, twin screw 501
Motor ship's five-and-a-half years' service *238
Motor trucks as the solution of the marine freight terminal problem. Horine.... *20
Motor trucks at steamship terminals. Hutchins and Perry *441
Motor trucks for use on steamship piers, advantages. Patten 447
Munamar, Munson steamship *186
Munson steamship Munamar *186

Naval Architects' annual meeting..... 539
Naval Architects' meeting, program of.. 496
Naval experimental wind tunnel at Washington Navy Yard. M'Entee..... *64
Naval preparedness—the British fleet. Sinn 314
Naval stations and naval bases. Niblack. 546
Navigation laws compared 70
Need of an efficient mother ship for the submarines of the United States Navy. Skerrett *234
Nevada, United States battleship..... *155
New and Constructive Policy for Upbuilding the American Merchant Marine. Baker 109
Newport News Shipbuilding & Dry Dock Co. *131
New London Ship & Engine Building Co. *123
New York Shipbuilding Company..... *121
Notes from the model basin. McEntee.. *530

Ocean shipping 8
Ocean freighters. Riggs 229
Oil burning vessels, regulations for..... 288
Oil engine, design of 541
Oil engine, future of the marine. Wentworth *270
Oil tank steamer Antwerpen..... *491
Oregon, motor ship *335
Oil tank steamship Texas *232
Oil tankers, Hannevig, motor-driven.... 144
On the suitability of current design of submarines to the needs of the United States Navy. Rogers 545
S. M. Otis, tug boat equipped with oil engines *231

Pacific, trials of 159
Paddle wheels, feathering. Bragg..... 548
Panama canal, draft of ships in..... 436
Panama colliers Ulysses and Achilles.. *283
Passenger and cargo boat for the West Indies, 64-foot steel *240
Peninsula Shipbuilding Company..... *538
Peru, twin screw motor ship 501
Philadelphia, marine terminal improvements *437
Pitches for screw stays *78
Pittsburg and Conneaut dock, coal handling equipment at *15
Plate and angle heating furnaces Installed at the Cramp's Shipbuilding plant *422
Plate and angle shop and mold loft completed at Fore River shipyard..... *485
Pneumatic tools in shipyards and dry docks. Thor *504
Pocahontas, tug, launched at Norfolk Navy Yard *241

Portable loading and unloading machines for marine terminals. Frost..... *452
Power estimating. Baier..... *499
Power forging of chain cables..... 542
Pressure on a vessel's bottom during launching. Barber *187
Procida, steamship, refrigerating machinery on *273
Profits from old vessels. Woolley..... 224
Progressive American Diesel Engine Building Co *123
Propeller design for turbine-driven ships. Graveson *66
Propulsion, economic. Rogers..... *316
Propeller, geometry of wide-bladeed screw. Graveson *242
Propeller surface, a criterion. Doig.... 178
Propulsion on a merchant vessel, electric *13
Pumps, geared turbine-driven, for dredge *244
Pusey & Jones Shipyard..... *130

Railway dry docks in Scandanavia, Crandall *487
Record year for the Union Iron Works Co *145
Refloating of the Hendonhall. Skerrett.. *26
Refrigerating machinery on S. S. Procida *273
Refrigerator and refrigerator insulation on board ship. Nassa..... 546
Refrigerator ship, conversion of McClellan into. French *189
Regulations for oil burning vessels..... 288
Reinforced concrete docks..... *468
Repair plants and shipyards, United States 113
Repair yards in New York harbor, ship.. *139
Resistance of various types of barges in shallow and deep water. Sadler..... 547
Revival in the United States, shipbuilding 23
River boat tunnel stern *335
Riveting, scientific studies applied to. Kennedy *408
Rivets, rules for ordering. Kennedy.... 529
Robins Dry Dock and Repair Plant..... *137
Rules for ordering rivets. Kennedy.... 529

Salvage experiments used in raising submarine F-4 539
Schooner Annie Johnson, auxiliary. Perkins *407
Scientific studies applied to riveting. Kennedy *408
Scotch boilers—dry steam in—remarkable performance of..... *205
Seattle Construction & Dry Dock Co.... *143
Seattle's steamship terminals. Dohm.... *495
Selected marine patents.. *48, 96, 174, 222, ...268, 312, 354, 396, 434, 480, 518, 560
Shallow draft boats and barges for river navigation. Beach and Kellar..... *53
Shipbuilding activity in Spain..... 142
Shipbuilding and general marine news.... *39, 87, 169, 201, 218, 261, 305, 349, 391, 437, 475, 513, 557
Shipbuilding and Shipping Situation.... 98
Shipbuilding boom, will it last ten years? Aldrich 483
Shipbuilding in France, merchant..... *183
Shipbuilding on the Columbia river..... 315
Shipbuilding on the Kennebec..... 119
Shipbuilding on the Pacific Coast, wooden *403
Shipbuilding revival in the United States 23
Shipping and waterfront property at Mobile, damage by destructive storm.. *488
Shipping Bill, an analysis of. "Old Scotch" 107
Shipping bill submitted to Congress by New York Chamber of Commerce.... 112
Shipping bill, what is to be expected of the. "Old Scotch" 437
Shipping destroyed by war operations.... 121
Shipping, ocean 8
Ship repair yards in New York harbor... *139
Ships built in the United States shipyards *149
Ships, draft of in the Panama canal.... 436
Ship's forms, calculations for. Taylor. *71, 246
Ship stability—The need for investigation. Wall 61
Shipyards and repair plants, United States 113
Shipyard, Skinner & Eddy. Dohm..... *378
Shipyards on the western rivers..... 126
Sinu, American-designed working boat for Cartagena *487
Skandia marine oil engines..... *220
Skinner & Eddy shipyard. Dohm..... *378
F. O. Smith Shipbuilding & Dry Dock Co., Inc. 123
Smoke, method of indicating density of.. 539
Society of Naval Architects, program of. 496
Southern Railway coaling pier at Charleston, S. C..... *58
Spedden Shipbuilding Co..... *127
Stability, the need for investigation, ship. Wall 61
Staten Island Shipbuilding Co..... 122
Status of cargo handling in American marine terminals. Rogers..... 356
Stays, pitches for..... *78
Steamer Chokyu Maru, bulk cargo. Ryu. *59
Steamer Cubadist, launching of the tank steamer *240
Steamer General C. B. Sears..... *289
Steamer George E. Warren, lengthened. *420
Steamer Sucrosa, geared turbine tank.... *359
Steamers built on the Lakes, Clyde line. *321
Steamers, new Luckenbach, freight..... 162
Steamship Antwerpen *491
Steamship Bristol, remarkable performance of—dry steam in Scotch boilers.. *205
Steamship Congress, burning of big Pacific coastwise passenger..... *496
Steamship Edward Luckenbach launched at Fore River shipyard..... *486
Steamship Jan Pieterszoon, Dutch passenger and mail. Coleman..... *181
Steamship line, economics of a. Percy.. 398
Steamship Milazzo..... *365
Steamship Minnesota fitted with new boilers *493
Steamship Munamar, Munson..... *186
Steamship Pacific, trials of..... 159
Steamship Procida, refrigerating machinery on..... *273
Steamship service, corresponding conditions of. Liddell 225
Steamship terminals, motor trucks at. Hutchins and Perry..... *441
Steamship terminals, Seattle. Dohm.... *495
Steamship Texas, oil tank..... *232
Steamship Yuna *321
Steam turbine on board ship..... *339
Steam yacht Winchester..... *329
Steel castings for American merchant and war vessels. Cone..... *336
Steering, efficient. Pratt..... *207
Stevedore, helping the electric. Yost.... *448
Submarine F-4, salvage of..... 539
Submarines in war and peace, modern. Lake..... *29, 75, 201
Submarines of the United States Navy, suitability of current design. Rogers.. 545
Successful installation of fire-tube superheater on a railroad tug..... *160
Sucrosa, geared turbine tank steamer.... *359
Superheater on railroad tug, fire-tube.... *160

Tank steamer Cubadist, launching of the *240
Tank steamer, geared turbine..... *359
Tankers, Hannevig motor-driven oil..... 144
Terminal facilities and work, harbor and port. Harding 60
Terminal improvements at port in Philadelphia *437
Terminal problem, motor truck as solution *20
Terminal problems, corporation formed to study 440
Terminal proposed for Honolulu, marine. 446
Terminal space, freight handling through unoccupied. Libby..... *459
Terminal work, how electricity is harnessed to. Rogers..... *464
Terminals at seaports, competing marine. McL. Harding *455
Terminals, costly congestion at marine. Marshall 193
Terminals, freight handling at marine. Marshall 225
Terminals, hoisting equipment for marine *462
Terminals, motor trucks at steamship. Hutchins and Perry *441
Terminals, portable loading and unloading machines for marine. Frost..... *452
Terminals, Seattle's steamship. Dohm... *495
Terminals, the status of cargo handling in. Rogers 356
Terminals, waste at..... 520
Test of Ward watertube boiler. Robinson *330
Texas, oil tank steamship..... *232
Theory of fluid friction. Gatewood.... 544
Thor pneumatic tools in shipyards and dry docks *504
Toledo Shipbuilding Company..... *133
Trials of geared turbine propelling machinery on freight steamer Pacific..... 159
Trials of motor ship Columbia..... 43
Trials of the steamship Bristol—dry steam in Scotch boilers..... *205
Trucks at steamship terminals, motor. Hutchins and Perry..... *441
Trucks for use on steamship piers, advantages. Patten 447
Trucks, tractors and trailers, Hunt. Jenckes *460
Tug boat S. M. Otis equipped with oil engines *231
Tug Pocahontas, launched at the Norfolk Navy Yard *241
Tugs for Central Railroad of N. J. Norton *56
Tunnel stern river boat..... *335
Turbine and turbo-electric systems of marine propulsion, geared. Macalpine.. *4
Turbine-driven ships, propeller design for. Graveson *66
Turbine machinery for single screw tank steamer, geared. Westinghouse..... *367
Turbine propelling machinery on freight steamer Pacific, trials of geared..... 159
Turbine tank steamer, geared..... *359
Turbo-electric and geared turbine systems of marine propulsion. Macalpine.... *4
Twin screw motor ship Peru..... 501
Twin screw tunnel stern excursion river boat *335
Types of ships built in American yards.. *149

Ulysses and Achilles, Panama colliers.. *283
Union Iron Works Co., record year.... *145
United States army collier built in China. *184
United States battleship Nevada..... *155
United States naval experimental wind tunnel at Washington Navy Yard. McEntee *64
United States, shipbuilding revival in the. 23
Use of conveying machinery for handling bulk freight on board ship. Greene.. *503
Utility of exhaust steam in a shipyard.... 252

Valk & Murdoch Company..... *128
Vessels, profits from old. Woolley..... 224
Voltaic corrosion and prevention. Rogers 250

Ward watertube boiler, test of. Robinson *330
Warships, bids for new..... 482
Watertube boiler, test of Ward. Robinson *330
Werkspoor marine Diesel engine. Wilson *16
Westinghouse geared turbine machinery for single screw tank steamer..... *367
What is to be expected of the shipping bill? "Old Scotch"..... 439
Why the Navy League is interested in the re-establishment of the merchant marine 482

Will the shipbuilding boom last ten years? Aldrich 483
Willamette Iron and Steel Works..... 148
Winchester, steam yacht..... *329
Wind tunnel, U. S. naval experimental at Washington Navy Yard. McEntee.... *64
Wooden shipbuilding on the Pacific Coast *403
World-wide demand for American ships. Taylor 523
Wreck of the Japanese liner Chiyo Maru. *382

Yacht Georgiana III..... *527
Yuna, steamship *321

COMMUNICATIONS

Allen dense air ice machine..... *344, 508
Analyzing a marine steam plant. Percy 209, 254, 298, 386

Boiler efficiency, practical discussion of the effects of combustion space upon.. 471
Boiler room, helpful suggestions for the.. *470
Boiler tubes, leaky..... *385
Boilers, preservation of marine. Rogers. 32

Checking up the coal consumption. Sawyer *79
Circulating engine, emergency repair to.. *388
Classification and filing of engineering data. Walker 295
Coal consumption, checking up. Sawyer. *79
Coaling a liner at Nagasaki. Conover... *79
Combustion space, effect of on boiler efficiency 471
Comparison between pneumatic and electric portable drills and geared hoists. Bassi 424

Data filing system..... *342
Dense air ice machine. Allen..... *344, 508
Deterioration of tail shafts in tropical waters. Conover *383
Direct and indirect valves..... *425, 470
Discharge of feed water in Scotch boiler. Roane 209
Drafting room 253
Dredge troubles 425
Economical method of removing ice from the deck and rigging of a vessel..... 253
Economical repair to worn plunger..... *551
Economy kinks *551
Emergency repair to circulating engine.. *388
Engine, indicator test of triple expansion engine. De Lorma *80
Engineering data, indexing and filing of. Walker 295
Engineering data, indexing and filing. Suzara *383
Engineer's kit of tools, marine..... 31
Expensive error of judgment..... 297

Feed heaters for small boats..... *297
Feed pump valves. Haas..... 509
Feed pumps and methods used to overhaul them. Wolf *255
Feed water discharge in Scotch boiler.... 163
Feed water heating. Rogers..... 507

Gasket kink 470
Graphic record of poor header seats in sectional type boilers..... *298
Graphical determination of particulars for spiral springs *163
Geared hoists and pneumatic and electric portable drills, comparison between. Bassi 424

Handy kink. Sawyer..... 209
Header seats in sectional type boilers, graphic method of..... *298
Helpful suggestions for the boiler room.. *470
Heaters, feed, for small boats..... *297
Heating feed water. Rogers..... 507
How feed water should be discharged into a Scotch boiler. Roane..... 209
Hydrostatic test pressure..... 341

Ice machine, Allen dense air..... *344, 508
Ice, removal from rigging of vessels.... 253
In what part of a Scotch boiler should the feed water be discharged?..... 163
Indexing and filing engineering data. Suzara *383
Indicator test of triple expansion marine engine. De Lorma..... *80

Kinks, some economy..... *551
Kink, gasket 470

Laurenti submarines. C. Laurenti..... 253
Leaky boiler tubes..... *385
Lubricating bearings. Forbes..... 343

Main bearings, refitting..... *383
Marine boilers, the preservation of. Rogers 32
Marine engineer's kit of tools..... 31
Marine steam plant, analyzing a. Percy. 298
Method of removing ice from the deck and rigging of a vessel..... 253

Naval architecture, reference library of. Christmas *295

Opportunity for export of American machinery and supplies to Russia..... 82
Overhauling feed pumps..... *255

Piston, removing from its rod..... 82
Pneumatic and electrical portable drills and geared hoists, comparison between. Bassi 424
Practical discussion of the effects of combustion space upon boiler efficiency.... 471
Preservation of marine boilers. Rogers.. 32
Pump linings, renewing wornout..... 424
Pump plunger, repairs to..... *551

Reference library of naval architecture. Christmas *295
Refitting main bearings..... *383
Removing a piston from its rod..... 82
Renewing wornout pump linings..... 424
Repairs to a defective tube..... 31
Reairs to worn plunger..... *551

Should the hydrostatic test pressure of one and one-half times the working pressure be applied to marine steam boilers annually?..... 341
Some economy kinks..... *551
Safety valves, setting and care..... *554
Spiral springs, graphical determination of particulars for *163
Statical stability at small angles. Doig.. *165
Steam plant, analyzing a marine. Percy 209, 254, 386
Stop valves 553
Submarines, Laurenti. C. Laurenti..... 253

Tail shafts, deterioration of in tropical waters. Conover .....
Tools, marine engineer's kit..... 31
Triple expansion engine, indicator tests of 80
Tube, repairs to a defective..... 31
Tubes, leaky boiler..... *385

Valves, direct and indirect..... *425, 470
Valves, feed pump. Haas..... 509
Valves, stop 553

ENGINEERING SPECIALTIES

Air pump, Radojet. C. H. Wheeler Mfg. Co ... *516

Berths, metal. Bernstein Mfg. Co ... *266
Boilers. Babcock & Wilcox ... 46
Boring bar, "Gauge-All" expansible double. Vislok, Ltd ... *94

Circulators. Eckliff Automatic Boiler Circulator Co ... *92
Compressor, turbine-driven. DeLaval Steam Turbine Co ... *92

Davit turning gear. Coston Signal Co ... *308

Engine, 120-horsepower 4-cylinder Nlseco Diesel. New London Ship & Engine Co. *44

Fire helmet. Maxwell-Hood Manufacturing & Selling Co ... *353
Flanging press, standard 200-ton sectional. Southwark Foundry & Machine Co ... *309
Flue welder, "Universal." Southwark Foundry & Machine Co ... *558

Generator, bipolar oxygen and hydrogen. International Oxygen Company ... *308
Gratings for engine-room platform "Subway." Irving Iron Works Co ... *265

Hoist, new model "Little Tugger." Hydraulic bolt forcer, 40-ton. Hydraulic Ingersoll-Rand Co ... *515
Press Mfg. Co ... *266
Hydraulic steering gear. American Engineering Co ... *352

Lubricating box for propeller shafts. F. R. Cedervall & Soner ... *94

Metal sawing machine "Q. M. S." ... *352
Motor lifeboats. Welin Marine Equipment Co. ... *220

Oil engine, "Skandia." Marine Oil Engine Co., Inc ... *220
Oxy-acetylene cutting torch. Imperial Brass Co ... *44
Ozonators, electric, for cold storage spaces. Sprague Electric Works ... *266

Piling, straight web steel sheet. Lackawanna Steel Co ... *352
Plate planer. Covington Machine Co ... *310
Portable pneumatic drill for exceptionally heavy work. Ingersoll-Rand Co ... *264
Projector, flood-lightning. General Electric Co ... *95
Pump, "Viking" rotary. Schirmer-Frensdorf Co ... *93
Pumps, centrifugal. Wheeler Condenser & Engineering Co ... *310
Punch, portable channel iron. W. A. Whitney Mfg. Co ... *94
Punches. Covington Machine Co ... *264

Shovel, power scraper. Brown Hoisting Machinery Co ... *45
Stove, "Speedway" alcohol, for yachtsmen. Gas Engine & Power Co. and Chas. L. Seabury & Co., Cons ... *265

Torch, savings made by oxy-acetylene cutting. Imperial Brass Mfg. Co ... *44
Turbo gear installation. Turbo Gear Co. . *220

Valve, "Everlasting" blow-off. Scully Steel & Iron Co ... *93

Whistle control. McNab Co ... *479

MARINE ARTICLES IN THE ENGINEERING PRESS

Apprenticeship. Education of youths before and after their. Mundella ... 260

Bingera, turbine machinery of the steamship ... 217
Breifond and Aztec, cylindrical tank oil-carrying steamers ... 85

Canadian railway ferry steamer Scotia II 86
Coast Guard Ossipee and Tallapoosa, trials of ... 35
Composition of the exhaust from liquid fuel engines. Fenning ... 303
Cruiser sterns on merchant ships ... 304
Cushing, trials U. S. torpedo boat destroyer. Cox ... 260
Cylindrical tank oil-carrying steamers Breifond and Aztec ... 85

Description and trials of the U. S. torpedo boat destroyer Cushing. Cox ... 260
Designs of propelling machinery for a 19½-knot steamer, some alternative. Dornan ... 86
Destroyer Wadsworth, U. S. ... 36
Determination of the principal dimensions of marine reciprocating propelling machinery ... 304
Dock of 14,000 tons lifting power at Rotterdam, floating ... 260

Education of youths before and during their apprenticeship. Mundella ... 260
Ericcson, torpedo boat destroyer. Lange. 85

F-4, salvage of the submarine. Furer ... 35
Fastenings, steam turbine blade. Capstaff 304
Ferry steamer Scotia II, Canadian railway ... 86
Floating dock of 14,000 tons lifting power at Rotterdam ... 260

Geared turbine propelling machinery of the S. S. Northumberland ... 303

Heat losses in steam transmission. Cathcart ... 85
History of Lloyds. Marsden ... 304

Improvement of screw steering gear ... 85

Jean Pieterszoon Coen, twin screw steamer ... 35

Kangaroo, Western Australian government ... 86

Lighting of a passenger steamer. Spaulding ... 303
Lighting of ships. Horner ... 303
Lloyds, history of. Marsden ... 304
Lubrication, practical. Bryan ... 260

Marine reciprocating propelling machinery, determination of the principal dimensions of ... 304
Merchant marine from a Southerner's viewpoint ... 38
Method of estimating the stability required by a ship. Liddell ... 85
Motor-ship Kangaroo, Western Australian government ... 86
Mystery of the screw propeller. Dyson ... 217

Northumberland, geared turbine propelling machinery of ... 303
Novocastrian, passenger and cargo steamer ... 303

Oil-carrying steamers Breifond and Aztec 85
Ossipee and Tallapoosa, trials of Coast Guard ... 35

Passenger and cargo steamer Novocastrian ... 303
Practical lubrication. Bryan ... 260
Principal dimensions of marine reciprocating propelling machinery, determination of the ... 304
Propeller tests, experimental basin, German government, Berlin ... 35
Propeller, the mystery of the screw. Dyson ... 217

Railway ferry steamer Scotia II, Canadian ... 86
Reciprocating propelling machinery, determination of the principal dimensions of marine ... 304

Salvage of the submarine F-4. Furer ... 35
Scotia II, Canadian railway ferry steamer 86
Screw propeller. Denny ... 303
Screw propeller, the mystery of. Dyson. 217
Screw steering gear, improvement of ... 85
Shipbuilding in 1915, the world's, excluding warships ... 216
Ship calculations, time element and related matters in some. Welch ... 216
Some alternative designs of propelling machinery for a 19¼-knot steamer. Dornan ... 86
Stability curves, standardization of. Ayre. 216
Stability required by a ship, method of estimating. Liddell ... 85
Standardization of stability curves. Ayre 216
Steamer Jean Pieterszoon Coen, twin screw ... 35
Steamer Novocastrian, passenger and cargo ... 303
Steamer Scotia II, Canadian railway ferry ... 86
Steamers Breifond and Aztec, oil-carrying ... 85
Steamship Bingera, turbine machinery of the ... 217
Steamship Northumberland, geared turbine propelling machinery of ... 303
Steam transmission, heat losses in. Cathcart ... 85
Steam turbine blade fastenings. Capstaff. 304
Submarine F-4, salvage of the. Furer ... 35
Systematic propeller tests, experimental basin, German government, Berlin .. 35

Tallapoosa and Ossipee, trials of Coast Guard ... 35
Tests, propeller, German government ... 35
Time element and related matters in some ship calculations. Welch ... 216
Torpedo boat destroyer Cushing, trial and description of. Cox ... 260
Torpedo boat destroyer Ericcson. Lange. 85
Torpedo, the ... 35
Trials and description of the U. S. torpedo boat destroyer Cushing. Cox ... 260
Trials of Coast Guard Ossipee and Tallapoosa ... 35
Turbine machinery of the steamship Bingera ... 217
Twin screw steamer Jean Pieterszoon Coen ... 35

U. S. torpedo boat destroyer Cushing, trial of. Cox ... 260
United States Ship Wadsworth ... 36

QUESTIONS AND ANSWERS

Absorption of water by gas 511
Aeroplane propellers 555
Ahead and backing power of engine 428
Air pump, discharge temperature of 427
Ammonia and compression refrigerating systems compared *347
Amount of material necessary to sheath a boat *347
Analyses of stresses *473
Application of the theory of mechanical similitude 214
Area of rudders 214
Auxiliaries, steam consumption of *302

Backing and ahead power of engine 428
Bearings, connecting rod 214
Best method of reducing power 214
Boiler horsepower and engine horsepower 35
Boiler tubes, effect of soot on 35
Boilers, laying up 512
Books on marine engine design 556
Books on propeller design 167
Books on wooden shipbuilding 512
Brushes, remedies for sparking of 214

Calorific value of coal 168
Calorific values of fuel gases 35
Calorific values of gasoline and kerosene, Relative 167
Classification of Terry turbine 389
Coal, calorific value of 168
Coefficients, hull, length and breadth to be used for 214
Coefficients of friction of lubricating oils 36
Coils in spring, number of *84
Cold storage compartments, insulating materials for 389
Comparison of engine performance 390
Compressed city gas, volume of 168
Compression and absorption of ammonia, refrigerated systems compared *347
Connecting rod bearings 214
Consumption of lubricating oil for gasoline (petrol) engine 167
Consumption of steam, direct acting Simplex feed pump 257
Consumption of steam for feed pump 390
Consumption of steam of auxiliaries *302
Costs, labor 555

Defects in indicator cards *511
Definition of "Inverted" as applied to marine engines 348
Difference between compression and absorption ammonia refrigerating systems *347
Dimensions of propeller, formula for 36
Direct and indirect valves 389

Effect of throttling of superheated steam 512
Effect of soot on boiler tubes 35
Effect on steam consumption of throttling dry steam 301
Efficiency of radial and feathering wheels *474
Electric wiring 428
Energy and heat 555
Engine design, books on 556
Engine horsepower and boiler horsepower 35
Engine, method of testing a gasoline *83
Engine performance, comparison of 390
Equalizer leads, size of 389
Evaporation of Scotch and watertube boilers 390
Evaporator plant, feed heater for *427
Expansion of steam, rule for 257

Feathering and radial wheels, efficiency of *474
Feed heater for evaporator plant *427
Feed pump, steam consumption of 257
Feed pump, trouble with 389
Flue gases, percentage of CO_2 in, for good operation *84
Formula for dimensions of propeller 36
Friction of lubricating oils, coefficients of 36
Fuel gases, calorific values of 35

Gases, calorific values of fuel 35
Gearing, marine reduction 427

Hatchet planimeter 257
Heat and mechanical energy 555
Highest steam pressure recorded—velocity of flow of steam 83
Horsepower, boiler and engine 35
Horsepower in stern-wheel river boats in upstream and down stream runs 168
How to figure horsepower of Janney-Williams motor 167
Hull coefficiencies, length and breadth to be used for 214

Impulse turbines, multi-stage 301
Increasing voltage of generator set 389
Indicator cards, defects in *511
Indicator cards for triple expansion engine *348
Insulating materials for cold storage compartmetns 389
Inverted marine engine, definition of 348

Janney-Williams motor, horsepower of 167

Kingsbury and Michel thrust bearings *257

Laying up boilers 512
Length and breadth to be used for hull coefficients 215
Ljungstrom turbine 390
Low pressure piston rods, size of 215
Lubricant for use in cutting threads in mild steel bolts 259
Lubricating oil for gasoline (petrol) engine, consumption of 167
Lubricating oils, coefficients of friction of 36

Marine reduction gears 427
Masts, rake of 555
Mechanical energy and heat 555
Mechanical similitude, application and theory of 214
Metacentric height *555
Method for finding power of a number 427
Method of testing a gasoline (petrol) engine *83
Michell and Kingsbury thrust bearings *257
Motors, overheating of enclosed 259
Multi-stage impulse turbines 301

Number of "live" or effective coils in a spring *84

Oils, coefficients of friction of lubricating 36
Operation of Westinghouse refrigerating machine 214
Overheating of enclosed motors 259
Paddle wheels, radial and feathering, efficiency of *474
Percentage of CO_2 in flue gases for good operation 84
Piston rods, areas of low pressure 215
Planimeter, hatchet 257
Power for driving propeller 512
Power reduction, methods of 214
Propeller design, books on 167
Propeller for motor boat, size of 389
Propeller, formula for dimensions of 36
Propeller, power for driving 512
Propellers, aeroplane 555
Pump, test of 427

Radial and feathering wheels, efficiency of *474
Rake of masts 555
Rate of evaporation for Scotch and watertube boilers 390
Ratio of turbine reduction gearing 390
Reduction gearing, ratio of 390
Reduction gears, marine 427
Refrigerating machine, Westinghouse, operation of 214
Refrigerating sytsems, difference between compression and absorption ammonia *347
